2. OBLIGATIONS OF THE PARTIES

2.1. System Operation and Access. Throughout the Term of this Agreement, Registry shall operate the Registry System and provide Registrar with access to the Registry System enabling such Registrar to transmit domain name registration information for the TLD to the Registry System according to a protocol specified by Registry (the "Protocol"). As part of its registration of domain names in the TLD, Registrar shall ensure that all Registrants submit the data elements required by Registry using the Protocol concerning domain name registrations processed through the Registry System ("Data Elements"). In addition to the foregoing, Registrar shall maintain its own customer data. Registrar agrees that it shall not disclose any password provided by Registry except to Registrar's employees with a need to know.
